"ALL-TEST PRO™ SEMINAR"

Tools and Technology for PdM Testing and Condition Monitoring of Electric Motors

Melbourne - Monday 29th May 2006

The **apt Group** has teamed-up & now holds exclusive distribution rights in **Australia & New Zealand** for **ALL-TEST PRO™**, World Leader in off-line & on-line test instruments for Predictive Maintenance, Trouble Shooting & Quality Control of AC/DC Electric Motors. Regional technical services & authorised training programs are an important support mechanism for customers & central to our operation.

Presented by
Bill Kruger
Technical Support
Manager
ALL-TEST PRO™

Who should Attend the Seminar?

This seminar is specially designed for maintenance supervisors, reliability engineers, predictive maintenance and trades personnel; in fact, anyone who is interested in improving plant operation using simple to use techniques and tools.

What is the Seminar about?

The ALL-TEST PRO™ range of on-line & off-line test and diagnostic instrumentation and applications will be presented - to improve Motor System Reliability "any type, any size", using unique, purely "Non Destructive" testing methods and procedures. Aimed at commissioning new or repaired electric motors; diagnose winding faults quickly and accurately; identify rotor health, incoming power quality and drive wellbeing; plus, driven load mechanical health; trending condition over time and to distinguish what is NOT faulty.

SEMINAR SYLLABUS

- o Introduction to ALL-TEST PRO™
- o Electrical Reliability/Maintenance Philosophies
- o Off-line - Motor Circuit Analysis
- o On-line - Electric Signature Analysis
- o New Product Releases
- o Demonstrations & Applications

REGISTRATION DETAILS – FREE SEMINAR - RSVP (by Fri. 26 May 06)

Melbourne – Monday 29 May 2006
Registration 9:00am – Finish 4:00pm.

Venue details: Holiday Inn
1 Centre Rd, Melbourne Airport. Vic.

Participant Details:

NAME: _____ POSITION: _____
 COMPANY: _____ DEPARTMENT: _____
 ADDRESS: _____
 STATE: _____ POSTCODE: _____ EMAIL: _____
 TELEPHONE: _____ FAX: _____

Please either email or fax the registration form to secure a place now (duplicate form as required)

2006 Training Schedule: Motor Diagnostic Workshops (3 days ea.) Start 31 May Perth & 6 June NZ
